

Announcing the 2019  
Reno Convention Car

# The Reno Silver Rush is on!

LCCA is creating another silver rush in Reno, with its very special convention car for its 49<sup>th</sup> annual convention – a Black Widow Southern Pacific Mint car made exclusively for LCCA by Lionel. And this is no ordinary mint car. This car has die-cast metal trucks, a precious load of silver ore and interior overhead lighting. This is the first time the Southern Pacific Black Widow paint scheme has been applied to an O gauge mint car.

LCCA members can place their orders now, with a limit of two cars per member. The cars will be delivered after the July convention.

Order the Reno limited-edition SP Mint Car in the LCCA website store or by calling the LCCA Business Office at 815-223-0115.
